The Unborn speaks

And am I the voice of the universal all-unity

I tell you

It is not Vladimir Putin who is threatening Europe, but the European political elite. YES, the European political elite is the only and deeply paranoid enemy of Europe. It embodies and reveals Semitism, that evil spirit of imperial absolutism that believes itself chosen to take possession of the earth. Its rearmament is aimed at self-destruction.

They just don't know it.

And anyone who speaks of German democracy is abusing, devaluing and polluting democracy by elevating Germany above it. German democracy defines the worst kind of fascism.

Anyone who has to or wants to prove themselves is not only a disastrous psychopath, but a comprehensive threat. Friedrich Merz is not only incompetent, disorientated and without answers, but also deeply dangerous to society. Anyone who goes with him is only serving their own self, which is deeply rotten and contaminated.

And it has been told to you.

And my name is
